

Hybond®

PRODUCT DATA SHEET

666 Redna Terrace, Suite 600
Cincinnati, OH 45215
Customer Service: (800) 330-5566

Product Number: **689**

Description: **FLAMMABLE SOLVENT /CLEANER / REDUCER**

Benefits:

Fast Drying
Non-Ozone Depleting
Can be used to clean residue and thin adhesive

Typical Physical Properties:

Viscosity Water like
Flammability Flammable liquid/vapor
Color Clear
Flash Point -20 deg F

Application:

A clear solvent recommended for thinning and cleaning most extremely flammable contact adhesives. Can also be used for cleaning brushes, rollers, equipment parts and for flushing through spray lines and spray guns.

In thinning adhesive, add a small quantity of solvent while thoroughly mixing until the desired consistency is reached. Be careful not to add too much solvent and/or add solvent too fast.

In cleaning adhesive off substrates, DO NOT flood the area with solvent as it can work into seams and soften the adhesive and cause delaminating. Use a cloth that is saturated with solvent, but not dripping. Keep the solvent exposure to edges and seams of the lamination at a minimum to avoid softening the bond line.

Precautions:

Liquid and vapor are extremely flammable.
Avoid application equipment containing aluminum or copper.

Storage Conditions:

Keep container closed tightly when not in use.
Do not store in direct sunlight.

Please Refer To The Safety Data Sheet For Further Information.
